

MD 530G BII

LIGHT ATTACK HELICOPTER

MD 530G BII

LIGHT ATTACK HELICOPTER

The **MD 530G B II** is a cutting-edge, purpose-built light scout attack helicopter solution that delivers impressive maneuverability and firepower. An upgraded pilot-centric Integrated Weapons Systems (IWS) from Elbit Systems Ltd, that includes an advanced Weapons and Mission Management System (WMS/MMS) and a Helmet Display and Tracking System (HDTs), significantly expands the airborne combat capabilities of this proven platform. With the **MD 530G B II**, combat commanders are able to control the battlespace with precision strike and suppressive fire capabilities, effectively meeting an array of mission requirements more efficiently than ever before.
