MD 600N

POWER. SAFETY. PERFORMANCE.

Some missions require more from a helicopter. More speed. More power. More payload. More productivity. These missions require the **MD 600N** – one of just three helicopters – all manufactured by MD Helicopters, Inc. – to feature the exclusive NOTAR® system for anti-torque and directional control. The **MD 600N** boasts the outstanding handling qualities that are typical of all MD-brand aircraft, enhanced by a six-blade main rotor system; making the **MD 600N** exceptionally agile and smooth. Superior for service in variety of missions.
